

PROTECTIVE EQUIPMENT

DISPOSABLE LATEX/NITRILE GLOVES

For staining, toning, glazing or spray finishing. The **nitrile** gloves (dark blue in color, 15 mil) have nearly four times the mil thickness, thus are snag, tear and abrasion resistant as well as **more chemical resistant** than your typical latex gloves (4 mil). The **new** 8 mil latex glove (black in color) is excellent in cost and durability.

Available in the following sizes, (-XX designates the size):
small (-01), medium (-02), large (-03)
xtra large (-04) and XXlarge (-05) [if available]

- 32006-XX Nitrile (Dark Blue) (50/Box)*(15 mil)
- 32007-XX Latex (off White) (100/Box) (4 mil)
- 32009-XX Nitrile (Black) (100/box) (6 mil) **(New)**
- 32062-XX Nitrile (Light Blue) (100/Box) (4 mil)

REUSABLE LATEX GLOVES - MEDIUM DUTY

Excellent medium duty latex gloves for hand stripping, solvent neutralizing, wood bleaching, staining and finishing. One size fits all. Color is yellow.

32005

RUBBER APRON

Extra heavy duty HYCAR rubber apron gives maximum protection from stripping chemicals and solvents. Adjusting neck band gives length flexibility. Available in two lengths.

- 32025 24" X 36"
- 32026 36" X 46"

ARM PROTECTORS

Snug fit plastic protectors cover arms from chemical splash. Sold as pair.

32015

DISPOSABLE ORGANIC VAPOR RESPIRATOR

Protects against low levels of organic vapors. However, this type of respirator is no longer approved by OSHA for use with Methylene Chloride vapors. Only a Positive Pressure Respirator System can be used for Methylene Chloride vapors at levels below 625 ppm.

This disposable respirator protects against other organic vapors such as solvents found in lacquers and thinners. Light weight for comfort, has low profile for clear vision. Disposable when canister is spent.

A snap-on disposable spray pre-filter is also available to protect the charcoal cartridge from overspray.

- 32050 Vapor Respirator
- 32051 Retainer Ring (pair)
- 32052 Spray Pre-Filter (pair)

FINISH REMOVAL RUBBER GLOVES

Heavy (55 mil) and light duty (40 mil) rubber gloves essential for use with finish removers and after washing. However, OSHA mandates the wear of Silvershield/4H gloves under these gloves when using Methylene Chloride based finish removers, but not so for those that are methylene chloride free. **XX=01, 02, and 03** designate sizes **9, 10, and 11**, respectively.

- 32000-XX Heavy Duty Stripping
- 32001-XX Light Duty Stripping
- 32002 24" Long, Light Duty (available in size 10 only)

SILVERSHIELD/4H

Lightweight, flexible laminate material that resists permeation and breakthrough by an array of toxic/hazardous chemicals. Use alone or as a glove liner. In fact OSHA mandates that these long lasting gloves must be worn when stripping with Methylene Chloride based finish removers or under rubber gloves when using same to block from skin absorption. Rubber or latex gloves alone are not approved by OSHA for use with Methylene Chloride. 4 mil thick. Ambidextrous, fits either hand. Distinctive silver color for easy identification.

32016

EYE PROTECTION

Safety goggles and safety glasses protect eyes from chemical splash and fine dust. Distortion free lenses are made of high impact clear plastic. **WILL NOT RESIST METHYLENE CHLORIDE.**

- 32012 Plastic Goggles
- 32013 Plastic Glasses

FACE SHIELD

Light-weight shield for face & neck protection. Adjustable to head size with flip-up feature. The polycarbonate plastic visor is disposable and replaceable. Visor is 12" wide.

- 32010 Face Shield w/visor
- 32011 Replacement Visor

DENIM APRON

Tough denim apron with pockets, protects clothing from dust, glue, finishes, etc. A must for any woodworker.

32027

COTTON GLOVES

100% cotton gloves keep hands warm and clean. Economical. Not for use under stripping gloves as liners. One size fits all.
