

## **HYDROCOTE® PENETRATING WOOD STAIN**

Quick drying, Green Technology, non-fading interior/exterior stain that offer excellent grain penetration, clarity and color retention. Can be coated with any type of finish, solvent or water based. Apply by spray, brush or wipe-on. Can be intermixed to achieve custom colors. Thin with water or **HYDROCOTE® Stain Reducer** (see below) for lighter effect or, to slow down the drying time. Mix with Clear Stain Base to reduce color intensity. On soft woods such as pine, fir, spruce, etc., use **HYDROCOTE® WOOD PRE-SEAL** prior to staining to minimize potential blotching and streaks. Coatable within 30 minutes. Allow overnight to dry if brushing or wiping-on a water-based finish on top of this stain. Please specify CAT #, COLOR# and COLOR when ordering. **Coverage, 200-300 sq. ft./gal.**
