

HYDROCOTE® POLYSHIELD® CLEAR SUPERPOLY

Supreme finish of all (in water-based), short of polyester. Super tough, super hard, and non-yellowing for the most demanding wood surface protection, interior and exterior. UV stable, but not UV stabilized, intentionally (for greater durability) to meet the most demanding wood surface protection. **Interior and exterior.** Self-sealing for exterior application, or apply over **HYDROCOTE® Clear Wood Sealer** (interior use only), if so desired. For finishing and refinishing of all interior and exterior furniture, kitchen cabinets, table tops, counter tops, office furniture, children's toys, school desks, pews, bathroom fixtures, flooring, and above waterline marine woodwork. No need to sand between coats.

Coverage: 400 sq. ft./gal Solids = 35% VOC = 1.8 lbs/gal. (216 g/L)

Key Product Features

- ✓ Quick Drying
- ✓ Water clear, non-yellowing and UV stable
- ✓ Outstanding clarity, depth, warmth and grain definition
